

Solutif Media - Company Profile and FAQ

About Us

Solutif Media is a leading AI and Digital Transformation agency. We specialize in building intelligent chatbots, web applications, and providing cutting-edge AI solutions to help businesses automate their operations and scale effectively.

Frequently Asked Questions (FAQ)

Q: What services do you offer?

A: We offer AI chatbot development, custom web application development, cloud deployment, and digital transformation consulting.

Q: How much does a custom AI chatbot cost?

A: The cost of a custom AI chatbot starts from \$5,000 depending on the complexity, integrations required, and the specific use case.

Q: What technology do you use for your chatbots?

A: We utilize state-of-the-art Large Language Models like Google Gemini and OpenAI GPT-4, combined with custom RAG (Retrieval-Augmented Generation) architectures using vector databases to ensure the chatbot answers questions based on your specific company data.

Q: How long does it take to deploy a chatbot?

A: A standard AI chatbot trained on your company profile and FAQs can be deployed within 2 to 4 weeks.

Q: Can the chatbot be integrated into my existing website?

A: Yes! We provide a simple JavaScript snippet that can be embedded into any website platform (WordPress, Shopify, custom HTML, React, etc.) within minutes.

Q: Do you offer ongoing support and maintenance?

A: Absolutely. We offer monthly retainer packages for continuous monitoring, model retraining, and system updates to ensure your AI solutions perform optimally.
